Poster Bulletins remain in high density locations for maximum advantage. They build familiarity with your brand, so customers will think of you when making purchasing decisions. With our Poster Bulletin package, your ad remains at one fixed location throughout the duration of your campaign (usually one to 12 months).

Traffic Data:
42,000+ vehicles per day on 15th Ave W.
(Northbound & Southbound)

Bulletin Size*

8'H x 32'W

Two faces available

42k+ / day

The following specifications can be used when creating a production file for:
Ztudio's static Poster inventory.

PRODUCTION RESOLUTION

Ztudio Posters are set up 1/2" = 1' scale @ 300ppi document resolution. This equates to about 12.5 pixels per linear inch on the final product.

MECHANICAL SPECIFICATIONS

Hold your design to the dimensions of the structure. The structure size represents the actual image area of the billboard.

Bleed your background by 6" on all four sides. This makes the overall vinyl size 1' larger than the image area in both height and width.

The production facility should make 3" pockets on the back of the vinyl for installation. This does not change the overall size of the vinyl.

Use the illustration below as an example:
